

Meet Your Co-Founders!

Danica Bartholomew (right) and Victoria Vega (left) were college roommates who made the decision to launch a business to help encourage people during the pandemic!

**Hoping to change the
world one positive
affirmation at a time!**

Our Vision

Positivi-Tees sells T-shirts with positive affirmations printed on the front in various fonts, colors, and designs. We sell T-shirts as well as other apparel such as long sleeve shirts and crew neck sweatshirts. We wish to portray an image that exudes positive energy and seeks to encourage people on a daily basis. This year has been tough on everyone and the co-founders acknowledge that everyone is facing their own battles and dealing with their own grief. Even though this pandemic has brought about a lot of challenges, the co-founders believe that mindset is everything. So they created apparel with positive affirmations to spark a more positive mindset among those who purchase the apparel and the people that our customers may encounter on the street who read their shirts/sweatshirts.
